Please briefly tell your story of your time at Silicon Valley Hypnosis Center. You may share what kind of changes and experiences you've had, or you may share why you came here in the first place, and how well you're doing now. I had an issue with alcohol and impulse control.

My binge drinking caused me to ~~lose~~ receive a DUI,
and I wanted to figure out what patterns of thought
made me behave like this, and how to healthily change my behavior
and feel better about myself. Now, I no longer have a desire to drink.

For what issue(s) did you come to the Silicon Valley Hypnosis Center? _____

binge drinking, alcohol, self-esteem

Please share how successful hypnosis has been for you.

Very successful in reflecting on how I feel subconsciously,
and what feelings made me want to give in to binge drinking.

What has been unique about your hypnosis experience compared to other methods you've tried before?

Unlike other methods, hypnosis felt very relaxing and I
felt very calm afterwards, instead of tired or agitated.

Why did you choose Silicon Valley Hypnosis Center?
